

Annex 7: Student Internship Report Form

Student Internship Report Form

Intern Name: TEAM C

Project: Innovation and Technology Public E-Learning Platform

Department Supervisor Name: _____

Reporting Period: _____

Report Number (circle one): 1 2 3

Instructions:

The intern will complete this section:

a) Task/s performed

I worked as a **Backend Developer** with **TEAM C** on the **Innovation and Technology Public E-Learning Platform**. My main tasks included developing RESTful APIs using Node.js and Express.js, working with the MySQL database, implementing authentication and authorization, and developing backend features for courses, lessons, enrollments, quizzes, assignments, and student submissions. I also tested APIs, fixed backend errors, implemented validation and error handling, and worked with the team to integrate backend services with the frontend.

b) Learning Experience

Working together with TEAM C gave me practical experience in collaborative software development. I gained and improved skills in Node.js, Express.js, REST API development, MySQL/SQL, JWT authentication and authorization, API testing, validation, error handling, and frontend-backend integration. I also gained different experiences and perspectives from my teammates, which helped me improve my communication, teamwork, debugging, problem-solving, and professional development skills.

c) Challenges

The main challenges were coordinating different parts of the project, integrating APIs with the frontend, maintaining correct database relationships, and resolving authentication, validation, and API errors. I tackled these challenges through teamwork, communication, systematic API testing, reviewing database queries and relationships, debugging, and discussing solutions with other team members. Working with TEAM C helped me learn different approaches to solving technical problems.

Annex 8: Student Internship Activity Log

Student Internship Activity Log

Host Institution:

Intern Name:

TEAM C

Project:

Innovation and Technology Public E-Learning Platform

Department Supervisor:

Reporting Period (DD/MM/YYYY):

- Instructions:
1. The student-intern is to fill this form by recording major tasks performed by them.

2. Respective internship supervisors are to review and evaluate the student's activity log.

Table 7: Weekly internship activity log

Week	Major tasks performed	Hours
Week 1	Project orientation with TEAM C; reviewed requirements, backend architecture, APIs, and database design.	40
Week 2	Worked with Node.js and Express.js; reviewed routes, controllers, models, middleware, and MySQL integration.	40
Week 3	Developed and tested JWT authentication, authorization, protected routes, and role-based access.	40
Week 4	Developed and tested course, section, and lesson APIs; worked on SQL queries and database relationships.	40
Week 5	Worked on enrollment and quiz APIs, including questions, options, attempts, answer saving, and submission.	40
Week 6	Worked on assignment submission and instructor evaluation features, including grading and feedback.	40
Week 7	Integrated backend APIs with the frontend and solved authentication, validation, API response, and data-flow issues with the team.	40
Week 8	Performed API testing, debugging, error handling, final integration, and system improvements while sharing knowledge with TEAM C.	40
